presents

The Ninth Annual Mountain States SWAT Training & Competition September 12 -14, 2023

OUR MISSION

Provide relevant real world training based on current events, utilizing a competition format to increase stress and push officers to perform at their best.

Teams will compete in 18-20 events over 3 days including:

- Live fire courses (handgun, rifle, sniper, shoot house, less lethal)
- Scenario-based training with non-lethal training munitions
- Obstacle Course
- Breakout classroom training sessions and recent SWAT event debrief

Trade tactics and exchange information with teams from all over the U.S., build camaraderie, and increase efficiency of multi-jurisdictional operations.

And most importantly, test your team proficiency in controlled environments and identify training points to focus on for future training efforts.
