**IMPORANT ADVISORY REGARDING
BALLISTIC PLATE MODELS 306P, XCAL DTP1 AND IMPAC P1**

Dear Safariland Customer,

As a company committed to the highest quality standards, Safariland maintains steadfast commitment to user safety. As a result, we are providing this important advisory bulletin regarding an operational issue that impacted production of certain plates of **Models 306P, XCAL DTP1 and IMPAC P1**. Specifically, during functional testing of one of our hard armor presses that had recently undergone infrastructure upgrades, we identified certain changes to manufacturing processes.

Upon investigation, we confirmed that the issue only impacted production during the period of **August 2025 to September 2025** of the following hard armor plates:

- **Model 306P** - sizes: X-Large SAPI, Large SAPI, Medium SAPI, Small SAPI, 10X12 and 8X10
- **Model XCAL DTP1** - sizes: X-Large SAPI, Large SAPI, Medium SAPI, Small SAPI, 10X12 and 8X10
- **Model IMPAC P1** - sizes: X-Large SAPI, Large SAPI, Medium SAPI, Small SAPI, 10X12 and 8X10

While we are not aware of any specific incident from the field related to this issue, in an abundance of caution, we will be replacing all the impacted plate models and sizes manufactured and shipped during this period. Importantly, we have undertaken corrective action to address the issue as well as repaired the affected press. Further, as part of our standard manufacturing processes, we have validated manufacture of these plates and resumed production.

As part of our investigation, we identified the serial numbers, along with the corresponding customers and sale orders, for these hard armor plates during the affected production period. As such, you are being notified because our records indicate that you purchased impacted hard armor plates. As a follow-up, your Safariland Account Manager will be contacting you to work through the replacement and return of all ballistic plates affected.

In the meantime, we urge you to continue to wear your ballistic plates until we can provide you with the replacements.

We truly appreciate your selection of Safariland and our products. At Safariland, the safety of law enforcement officers is of the utmost importance and, thus, the need for this extraordinary precaution. We sincerely apologize for this inconvenience and want to reaffirm Safariland's unwavering and true commitment to the highest quality of our products and after-sale support to our customers. Your satisfaction with the quality of our products and our service is our top priority.

Thank you for your attention to this important notification. Should you have any questions, please feel free to contact me at 909-214-0320 or Todd.Mackler@safariland.com.

Regards

Todd Mackler
